SKILLS

Languages

Python TypeScript

HTML JavaScript

CSS GraphQL

Frameworks

React Next.js Jest

Django Cypress Vue

Database

MySQL PostgreSQL

Other

Claude Code Github

Cursor AI Figma

JIRA

EDUCATION

B.S. Computer Science

San Francisco State University
2014 - 2020

WORK EXPERIENCE

Software Engineer II

First American

2025 – Present

- Migrated legacy application to React using Claude and Cursor, significantly reducing migration time through modernizing components.
- Contributed to reusable Claude skills that preserved application context throughout migration, reducing context-related re-work.

Software Engineer

Endpoint

2023 – 2025

- Delivered various customer-facing frontend features in React, TypeScript and GraphQL.
- Contributed to and increased test coverage of application using Cypress and Jest, reducing post-release regressions/bugs and supporting reliable releases.

Full Stack Software Engineer

Apple

2022 – 2023

- Engineered scheduling calendar functionality with React and Django, used by internal users/teams to manage internal data collection appointments.
- Enhanced the React QueryBuilder library for complex query generation and built Django APIs with unit tests, ensuring test coverage and reducing frontend-backend integration errors.

Junior Software Developer

Cloud Peak Law

2021

- Built a custom email editor enabling admins to send personalized lead-outreach emails using Python, Django, HTML, CSS, and JavaScript to support campaigns and improve response rate/outreach efficiency.
- Redesigned an order form with Vue and Django to render dynamic form data, reducing form completion time and improving user experience.

FEATURED PROJECTS

Online Portfolio

Web Development AI Tools

Built a fully client-side portfolio SPA in React 19, Vite, and Tailwind CSS 4, using Cursor and Claude as AI pair-programmers to scaffold components and accelerate development.

Sunpunch

Web Development

Developed a React + Node/Express clock-in system with JWT-secured authentication, letting employees log hours remotely during the pandemic-driven shift to work-from-home.
